

## Welcome to Frog Street for Young Learners

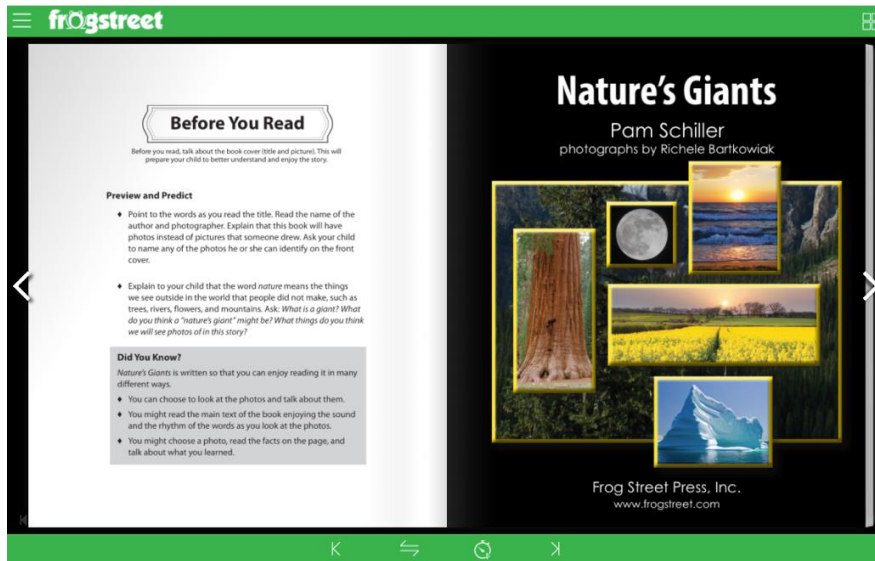

Frog Street is excited to support educators and families with children ages three to five by providing resources from our award-winning curriculums to use at home. These engaging resources offer the first step toward empowering families with the tools they need to influence academic growth at home.

You can access over 250 English and Spanish electronic books, activities and songs from the Frog Street “Empowering Families” and “Sing & Read” collections simply by creating an account and logging in.

*Access to these collections is **FREE** during school closures due to COVID-19.*

The **Early Literacy Digital Library Books** collection in English and Spanish include over 65 audio narrations and ready-to-use tips and ideas to help families use interactive and purposeful reading strategies when enjoying the books at home with their children.

The **eStories Literacy and Math Collections** in English and Spanish use familiar songs to promote oral language development and early literacy skills – bringing joyful instruction to children one song at a time! This program includes nearly 200 titles that provide the springboard for learning early literacy skills (including phonological awareness, vocabulary comprehension, alphabet knowledge, writing skills) and essential math concepts.
